

Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Rent Splitter: Split Rent Fair

App URL:
https://play.google.com/store/apps/details?id=com.funapps.fairsplit

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to gather comprehensive feedback on Fair Split. Additionally, we reached out to our target audience, including new roommates and friends splitting rent, to collect real-world insights from the intended users of the app.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers actively engaged by providing valuable insights on app usability, feature clarity, and overall functionality. Their feedback led to essential

improvements, ensuring Fair Split meets user expectations and enhances the rent-splitting experience significantly.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for ASO optimization, improved app screenshots, a dynamic walkthrough for new users, and an exit confirmation popup. Feedback was collected through surveys and direct communication, enabling us to address key usability issues effectively.

---

5) Who is the intended audience for your app?

Fair Split is designed for individuals and groups looking to split rent fairly, including new roommates, friends sharing apartments, and couples with different room sizes. It caters to anyone seeking transparency and fairness in shared living arrangements.

---

6) Describe how your app provides value to the users.

Fair Split calculates equitable rent distribution based on room features, ensuring transparency and fairness. With no ads or subscriptions, users can

easily share results with roommates, making the rent-splitting process simple and stress-free for everyone involved.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

We enhanced the app by optimizing the description for ASO, updating screenshots to showcase features, adding a dynamic walkthrough for new users, and implementing an exit confirmation popup to improve user experience and prevent accidental exits.

---

9) How did you decide that your app is ready for production?

After extensive closed testing, we incorporated vital feedback to enhance usability, ensured all features function as intended, and optimized the app for user engagement. These improvements confirm Fair Split is stable, user-friendly, and ready for production release.

---

10) What did you do differently this time?

This time, we focused on gathering targeted feedback from our intended audience, implementing suggestions for usability improvements, and optimizing app visibility. These strategies resulted in a more polished app that effectively addresses user needs and expectations.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
